

Please do not let the pressure from large TV and radio owners, using their dollars to bribe you, thus preventing XM satellite radio from doing a great job serving the public. Washington certainly has far more pressing issues that to spend their time on. It is so obvious to intelligent voters, that politicians are known for taking tailor made bribes from lobbyists and interested persons. Disgusting!!!! Dont' let the FCC fall into this trap. Don't let the NAB petition 04-160 pass. Reject this. You are better then that!!

Thank you,
Dana Hodges
